TRANSSTADIA UNIVERSITY

(A State Private University – 2022, UNIVERSITY GRANTS COMMISSION AWARDED)

Transstadia University, Ahmedabad (TSU) was established within a multi-sport infrastructural facility inaugurated by our Hon Prime Minister in 2017. Transstadia University received its State Private University status to promote education with a strong foundational pillar of sport. We aim to strengthen a career in elite sports, provide professional sports education, facilitate sports research and develop a sporting culture across communities to positively contribute to public health. But we have so much more to offer than just sports. We also have great management courses, forward looking computer science and artificial intelligence courses and a Master's Degree focusing on Sport and Event Management.

Transstadia Institute, Mumbai (TSI) was established in collaboration with Maharashtra's oldest university, University of Mumbai. It is recognised as the Centre of Excellence in Sports Science and Sports Management, under the University of Mumbai.

The key vision of both universities is to contribute towards the development of careers, not just education, but also to facilitate comprehensive and holistic education. TSU and TSI is a first of its kind school-university integrated institution for excellence in sports, with an aim to provide world-class sports training and education.

Apart from providing world-class sports training and infrastructure and a special customised sports integrated curriculum, TSU will also use sports science to enhance the performance of its student athletes. We have a physical and digital library, a club, multiple sports facilities and a centre of excellence for rehabilitation and prehabilitation for student athletes.

The registrations for programs at TSU and TSI have opened for the next academic session 2023-24 and the last date to register is the 01st of June 2023.

To ensure that a maximum number of talented students are informed of this outstanding opportunity to be a part of a sporting revolution, please help in disseminating this information to as many eligible and talented sportspersons as possible.

We, at Transstadia University and Transstadia Institute, look forward to working together with you to nurture our future sports champions and promote sporting excellence in the country.

Sports persons representing the country at International and National level can apply to the scholarship committee for up to a full tuition scholarship for any of the relevant courses. Similarly for State and District level athletes, we have a scholarship committee which will provide scholarships and other aid for these athletes to continue and promote their sporting careers.
